

# The Roost in Greenwood

A new 3+ bedroom, 3.5 bath 2,300 square foot home designed and built by Blue Ridge Energy Systems

We designed this home specifically for its cozy nest on lot 3 in Greenwood. It is the perfect site for this small footprint 3 level home, and it affords a wonderful view of the surrounding woods and creek. With 15 acres of protected woods for your enjoyment just a few steps away, the peaceful beauty of the mountains is the backdrop of everyday life.

This home was designed with energy efficiency mind. It employs our trademark package of passive solar design, a tight building envelope, and efficient heating and cooling appliances to keep energy bills amazingly low (well under \$200 per year for heating and cooling).

Net Zero Ready \$550,000

Net Zero \$575,000
